

# RADIO SANDY SPRINGS

## Here are a few things you should know before visiting Radio Sandy Springs:

Please visit our website to get an idea of who we are and what we do.  
[www.radiosandysprings.com](http://www.radiosandysprings.com) (Please visit our Contact page for directions)

For your own comfort and to help your host, please be in our studio at least 15 minutes prior to your program. Our phone number is 404-943-1620. If you think you will be late, please call.

We like to show our online listeners to whom they are listening via streaming. With your permission, we would like to snap a quick photo of you before you enter the studio. Your photo will go up on our homepage, so listeners can match a face with a voice. (Photo is small--no bigger than 2X3 inches)

Please silence all cell phones, beepers, PDA's etc. before entering the studio. We appreciate your cooperation.

Guests sometimes get thirsty while chatting with our hosts, so feel free to bring water or beverages with you to make yourself more comfortable while on the air. (Alcohol is prohibited).

You will need a code to enter the restroom. (Please ask receptionist for code if needed).

Remember to email your friends and clients and especially, your Mom, about your appearance on Radio Sandy Springs! They can hear you at 1620AM, only in Sandy Springs, or from all over the world at [www.radiosandysprings.com](http://www.radiosandysprings.com).

**The staff of Radio Sandy Springs looks forward to meeting you soon!**
